

Objective

Motivated Artificial Intelligence & Data Science student with strong interest in Machine Learning, problem solving, and AI-powered applications. Passionate about building innovative projects and continuously improving technical skills in software development and data science.

Education***Bonam venkata chalamayya institute of technology and science***

BTECH-artificial Intelligence and data science
2024-2028 — **8.3 (present)**

Aditya Junior college

MPC
2022-2024 — **88%**

S P R M blue (E.M) High school

SSC
2021-2022 — **72.1%**

Skills

- programming languages:
 - » c
 - » python
 - » java basics
- core concepts:
 - » Data Structures
 - » problem solving
 - » oop basic
- Technologies and Tools:
 - » HTML
 - » CSS
 - » Github
- soft skills:
 - » Team Management
 - » leadership skills
 - » presentation skills

Projects**learnSphere: AI- powered learning platform**

- Developed an AI-powered learning platform to help students understand Machine Learning concepts interactively.
- Implemented topic-based learning with customized explanations and interview preparation support.
- Designed difficulty-level based content generation for beginner to advanced learners.

**Achievements
& Awards**

Participated in multiple technical events and workshops conducted at college.
Secured a prize in a technical competition/event.
Actively involved in technical learning activities and academic events.
